

Please don't do anything to lessen Indiana's Telephone Privacy Act. It is wonderful not to be plagued with calls every day and night. If anything the law should be more restrictive, not less. I had people calling from 7 in the morning until 10 at night and on Saturdays and Sundays. Yes, I know they weren't supposed to, but they were. It is a pleasure to have a meal together as a family without the phone ringing off the hook.
